

NC Filling Putty

Vehicolor NC Filling Putty is a fast-drying 1K nitrocellulose putty designed for quick repairs of minor surface imperfections. Perfect for smoothing scratches, pores, and small irregularities before top coating.

PROCESS

	Substrates	Vehicolor NC Filling Putty can be applied over 2K putties, primers, and old paints previously sanded properly.
	Application	Apply by spreader. Apply in 1-2 thin coats. When necessary, repeat the operation more times. Allow drying for 5-10 minutes between coats.
	Scrape Tool	Putty spreader
	Drying time	25 minutes at 23°C
	Sanding	Machine dry sanding: P400-P500 Manual wet sanding: P800 or P1000

NOTE

1. For full Health and Safety information please refer to Material Safety Data Sheet (MSDS)
